

Graph representations for smart contract security

This is a fictional demonstration record, not an academic publication. No real authors, publication dates, measured statistics, quotations, or DOIs are claimed.

RESEARCH OBJECTIVE

Explore program graphs in a bounded smart contract setting.

EVALUATION CONTEXT

Selected smart contract cases

ILLUSTRATIVE CONNECTIONS

Smart Contract Security / Graph Neural Networks / CWE-related datasets / Improved Accuracy / Small Evaluation Scope / Limited Real-world Validation

HOW THIS DEMO WORKS

Upload this file with the other demo PDFs to SILAH. The prototype recognizes the fixture filename and loads predefined structured metadata. It does not extract or analyze PDF text. Potential opportunities apply only to this fictional collection.
