

Language models for vulnerability explanation and repair

This is a fictional demonstration record, not an academic publication. No real authors, publication dates, measured statistics, quotations, or DOIs are claimed.

RESEARCH OBJECTIVE

Explore contextual explanations and candidate repairs for vulnerable code.

EVALUATION CONTEXT

Selected public repository examples

ILLUSTRATIVE CONNECTIONS

Automated Code Repair / Large Language Models / Real-world repositories / Better Context Understanding / Small Evaluation Scope / Limited Real-world Validation

HOW THIS DEMO WORKS

Upload this file with the other demo PDFs to Research Graph. The prototype recognizes the fixture filename and loads predefined structured metadata. It does not extract or analyze PDF text. Potential opportunities apply only to this fictional collection.
